

Notes of meeting of voluntary group Monday 20th June 2016

Present: Shirley Cherry, David R, David D, Isobel W, Steve Millward, Wayne Cressman, Gary Cressman, Alison M

Apologies: Jeremy, Freddy

Meeting to discuss the draft of the Report prepared for the PC.

The Group went through the report to try to ensure it was manageable reading material for PC members, while retaining enough detail to be useful.

It was agreed that the parts on the Kineton and Long Compton Plans were too long and required rewriting as shorter versions, similarly the part on future consultation.

Gary was concerned that we might not require Housing Needs Survey based on all the advice about NPs available. On discussion and rethinking the evidence, it was agreed that this might be so, but some members were concerned that we might be caught out at a later date if we did not have it. At present, we will leave it as requirement waiting on further information.

Discussion on whether small developments of one, two and three houses should be included in the NP or not. Further research to be done on this.

Tasks were assigned to group members to rewrite and edit where necessary.

Alison and Steve pointed out that the big difference between Long Compton and Kineton' Planning Groups and Tysoe's was that the Parish Councils took ownership of the other Plans to drive them forward and had a Councillor working with them - and this was something that was lacking in Tysoe.
