	Nature of submission	Support the application for the following planning reasons
/05	Comments	The current pandemic has shown the importance of being able to work efficiently from home and we anticipate a change of attitude to working from home in the future. The proposal will enhance the infrastructure of the Parish and have the major effect of reducing car and other vehicle travel on the level of local pollution. The Council has

		a concern around the visibility of the mast from the OANB, its impact will be reduced amongst trees of sufficient height and density. The Council would therefore request enhanced planting of fast growing trees to further limit the visual impact.
