

**Kineton
&
Tysoe
Surgeries**

Dear Patients,

We must ask all patients to only visit the surgery if it is absolutely necessary. This is to protect you and other members of the general public and also our staff without whom the surgery would not be able to open.

To request medications please use Patient Access or go to www.askmykinetongp.com and register to use our secure online email consulting service. The email service can also be used to ask about any general medical queries, request hearing aid batteries etc.

We want to remain open and to be a port of call in this unrivalled storm but if our patients do not comply with Social Distancing measures as a last resort we may have to shut our door and move to a doorbell 2 patients in at any one time model.

Please help us to help you, read the notice on the surgery front door and 'keep Your Distance'

Many Thanks

Lesley Source Practice Manager
