### To find out if you can get fibre broadband:

1. Enter your landline number or address into the [BT Broadband Availability Checker](#).

If fibre is available, either 'VDSL Range A & B' or 'WBC FTTP' will be listed in the 'Featured Products' column of the results table along with the speeds you are likely to achieve.

Our [How to use the BT Broadband Availability Checker](#) web page will help you make sense of the Availability Checker results.

2. Remember, that if fibre is available, **you will need to order the improved service** to benefit from it. Use a comparison site such as: [MoneySavingExpert.com](#), [Broadbandchoices](#), [Broadband Genie](#) or [Cable.co.uk](#) to find / order a broadband package that meets your needs.

### What are the benefits?

Having access to faster broadband allows you to:

- Browse the web faster
- Stream HD films, TV shows, games and videos without buffering slowing you down
- Talk face-to-face with friends and family using Skype, FaceTime or similar software
- Compete with other businesses in the increasingly competitive global marketplace
- Reduce workplace costs through remote working / working from home

**Please Note:** Not every property connected to an upgraded FTTC cabinet is guaranteed to benefit due to some properties' distances from the cabinet and/or the quality of copper connections.
